ATTENTION: HOMEOWNERS

PLANNING ANY ALTERATION OR CONSTRUCTION PROJECT

All Kinnelon homeowners **are required to have a building permit** before starting any alteration or construction project on their property. A zoning variance may also be needed. Please abide by the following:

1. **A building permit must be obtained before starting construction** on a house, deck, garage, pool, or accessory building. A permit is also required for oil tank removal, abatement, oil-to-gas conversion, etc. Depending on the project, other permits may be necessary.
2. **Smoke Rise residents must obtain additional permits** from the Smoke Rise Architectural and Variance Committee. Please call them at 973.838.7449 before you start any work.
3. **A zoning variance must be obtained if** a proposed structure affects the Borough's Zoning Ordinance(s). For example, a zoning variance is required if your project approaches property boundaries more closely than allowed by the Borough code or exceeds the allowable height.
4. **Our Department Officials must complete all inspections** of your project before we issue a Certificate of Occupancy and Approval. We will NOT inspect any work performed without a permit.

A final caution - projects completed without permits are a nightmare for owners who sell their home years later. Without proper documentation, prospective buyers can be lost and the value of your property diminished. Besides breaking the law, your finished construction might be unsafe.

Please contact us before starting any construction so your project is safe and completed to code. Thank you.

SNOW ORDINANCE SUMMARY

84-21 PARKING UNLAWFUL DURING AN EMERGENCY: The Chief of Police, or authorized personnel, may post emergency, no-parking signs when required. No one may park where these signs are posted. Owners of any vehicles that were parked prior to the sign postings will be notified so they can move their vehicles.

84-22 PARKING UNLAWFUL DURING UNSAFE SNOW CONDITIONS: An unsafe snow condition exists when it is snowing and the snow is accumulating and covering the roadways requiring them to be plowed or salted. Vehicles are prohibited from parking on any road until the unsafe snow condition is over, i.e., it has stopped snowing, the roads have been cleared, and normal traffic flow has safely resumed.

84-23 REMOVAL OF VEHICLES ^{EN(1)}: Any unoccupied vehicle violating the two ordinances above will be removed at the owner's expense. All towing and storage fees will be paid by the owner before the vehicle is returned.

84-24 REMOVING ON TO MUNICIPAL ROADWAYS:

No person(s) shall move any snow or ice onto any roadway from the property they reside on - even if they are not the property owner (i.e., a tenant or occupant.) If you violate this rule, you will be fined a \$100 penalty for the first offense. For each subsequent offense, the penalty will increase by \$100 increments - not to exceed \$1,000.

Compassionate Care Hospice's practices support hospice philosophy to its fullest. Hospice provides palliative support and care for persons in the last phases of incurable disease so that they may live as fully and comfortably as possible. Hospice recognizes dying as part of the normal process of living and focuses on maintaining the quality of remaining life. Hospice affirms life and neither hastens nor postpones death. Hospice exists in the hope and belief that through appropriate care, and the promotion of a caring community sensitive to their needs, patients and their families may be free to attain a degree of mental, social, physical and spiritual preparation for death that is satisfactory to them.
